

# The Dog Dazzlers

## How Often Should My Pet Be Groomed?

**Fluffy Groom**  
4 - 6 Weeks

**Short (Not Shaved)**  
7 - 9 Weeks

**Shaved**  
10 weeks +

Too long of an interval between grooming increases probability of matting which adds risk of injury and discomfort for your pet

## Type of Groom

*We always strive to complete grooms according to your request; however, the condition of your dog's coat will impact the length/style that is possible.*

### Price Changes

Please note this is only a price guide  
and your pets groom will ultimately be  
priced on the weight, height, condition  
and length of coat, and your dogs  
behaviour.

If your dog hasn't been groomed for  
over 12 weeks please let us know  
prior to your appointment

### Arriving on Time

If you are running more than 15  
minutes late please contact us  
as your appointment will need to  
be re-scheduled and a  
cancellation fee may apply. We  
run on a tight schedule and  
even a 10 minute delay can  
push our groomers and bathers  
behind.

### Cancellation Policy

If your dogs groom is  
cancelled less than 24-hours  
before the appointment time, or  
you do not show up for your  
pets scheduled appointment  
you will incur a cancellation fee  
of 50% of the cost of the  
groom. If you miss more than  
two appointments in a row pre  
payment will be required for  
future bookings.

### Collection

All pets must be collected within 90  
minutes of being notified that your  
pets groom has been completed or  
we will charge a late pickup fee of  
\$20 per additional hour. If you  
need to keep your dog here for  
longer you will need to arrange a  
daycare reservation prior to your  
appointment.

## Additional Costs

- Condition of Coat** - Long Hair, Knotty Hair, Matted Hair or a Compacted Undercoat
- Extra Handling** - Aggression, Reactivity, Unable to Stand Still or Without Support
- Complexity of Groom** - Any extra requests (Creative Grooms, Extra Scissor Work etc)
- Matting** - Shaving out mats isn't a quick fix; it's a slow, meticulous process.

## Lets Talk Matting

Please remember shaving out mats is the safest and kindest option for your dog, as trying to brush out mats can be painful and may lead to further complications. We work carefully in sensitive areas to avoid nicks or cuts, as warts, moles, and skin folds can be hidden within mats.
